

X-RAY EQUIPMENT

DEL RT100 PATIENT TABLE

The sturdy **RT100 four-way float top table** is suitable for use in a variety of general radiographic environments including small hospitals, clinics, ambulatory care centers and private offices. The table features a 700 lbs (318 kg) patient weight capacity and a stain resistant floating table top which glides freely on a precision roller bearing system. Float top movements are safely controlled by heavy-duty electric locks, activated by a conveniently placed foot treadle release. The 17" x 17" standard bucky tray can accommodate any cassette sized detector with ease. Its all steel structure and welded base provides maximum strength and reliability. In addition, the RT100's pedestal base can be used to store generator electronics making it a great space saver.

DEL EV800 PATIENT TABLE

The durable **EV800 elevating four-way float top table** delivers outstanding safety and usability. Featuring an exclusive four-point lift system and exceptionally quiet motor-drive, its smooth, scratch resistant table top lowers to a height of just 22" to ensure stress-free patient transfers and adjustments. Offering a high patient weight capacity of up to 800lbs (363 kg), stable continuous movement is possible through conveniently placed recessed foot treadles and table-side controls, suitable for increasing technologist performance and satisfaction.
