

X-RAY EQUIPMENT

DEL MEDICAL OVERHEAD TUBE CRANE

The OTC tube crane highlights an advanced, technologist-friendly 10.4" touchscreen console providing seamless system integration by displaying tube angulation, SID values, and generator control options. Color-coded movement identification buttons provide optimal precision when setting up views.

Peaceful and effortless movements are controlled by an electromagnetic braking system enabling fast and secure readjustments of the tube head. Its five-tier telescoping column delivers exceptional vertical movement of 71" (180 cm), capable of performing complete head-to-toe radiographic procedures including upright weight bearing and recumbent table top exams.

The OTC Tube Crane comes in 3 different models:
