

X-RAY EQUIPMENT

ATX MOBILE X-RAY TABLE

The ATXST offers great balance between quality, versatility and economy. Use with ceiling-mount, mobile, or portable x-ray.

This Mobile X-Ray Table is made with a heavy-duty steel frame to provide maximum rigidity. The frame with the radiolucent tabletop can support up to a 136 kg patient weight.

This table height is **74 cm high** for easy patient access. The **61 cm width** is standard, and a length **140 cm**. The included **Cassette Tray** travels the entire length of the table enabling imaging studies anywhere along the length of the table. Grid available upon request.

This comes ready to be assembled with 4 legs to be bolted to the bottom of the table.

2.5 cm thick radio-transparent mattress is available upon request.

Manufactured in Australia by ATX

MULTIPURPOSE X-RAY & SURGERY ROOM WITH MOBILE STAND

The MULTIPURPOSE X-RAY & SURGERY ROOM with mobile stand solution is designed to allow greater use of real estate space, where a practice may or may not have enough space for a separate X-ray room or where would prefer to maximize available floor space in the clinic. This solution is perfect for integrating your existing or new portable x-ray generator. This table allows use of a portable X-ray generator as the main x-ray source - **providing you with more flexibility to use your portable generator in practice or on the field.**

Features:

- Nicely integrated design
- Easy & simple installation
- User friendly interface (Easy to learn)
- Visible status at all time
- Compact size
- Suitable for VET clinics with low budget.

Lead time: Subject to stock availability, transit times and radiation licensing. Estimated shipping date to be provided once the purchase is confirmed

DEL RT100 PATIENT TABLE

The sturdy **RT100 four-way float top table** is suitable for use in a variety of general radiographic environments including small hospitals, clinics, ambulatory care centers and private offices. The table features a 700 lbs (318 kg) patient weight capacity and a stain resistant floating table top which glides freely on a precision roller bearing system. Float top movements are safely controlled by heavy-duty electric locks, activated by a conveniently placed foot treadle release. The 17" x 17" standard bucky tray can accommodate any cassette sized detector with ease. Its all steel structure and welded base provides maximum strength and reliability. In addition, the RT100's pedestal base can be used to store generator electronics making it a great space saver.
